KEY INSIGHTS

- 1. **Heart Face is your dominant preference** - 67% of people you like have heart-shaped faces
- 2. **Symmetry matters** - You prefer highly symmetrical faces (95%+ symmetry)
- 3. **Medium-large eyes** - Not too small, not too large, well-proportioned
- 4. **Soft glamour style** - Light makeup, natural colors, matte finish
- 5. **Asian aesthetics** - Despite 45% Vietnamese, your preference is pan-Asian beauty standards

IMPORTANT NOTE

This analysis shows **CORRELATION**, not **CAUSATION**. Your preferences may be influenced by cultural exposure (K-pop, J-drama, media), familiarity with certain aesthetics, or social conditioning.

To definitively prove preference causation, a dataset with both "liked" and "disliked" samples would be needed for statistical comparison.
